SUMMARY

Business Intelligence & Data Analyst with 2+ years of experience transforming operational and business data into analytics solutions, automated reporting workflows, and data-driven business insights. Experienced in SQL, Python, Power BI, data visualization, data validation, transformation, and multi-source data integration, with professional experience supporting operational reporting and business decision-making. Strong background in translating business requirements into data solutions, collaborating with cross-functional stakeholders, and improving reporting processes through automation. Additional experience in machine learning, AI workflows, and analytical projects provides a complementary foundation for AI-enabled analytics and data operations.

SKILLS

- **Programming & Querying:** SQL, Python, Pandas, NumPy, Google Apps Script, Microsoft Excel, Google Sheets, TensorFlow, Scikit-learn, Git/GitHub
- **Data Analytics:** Exploratory Data Analysis, Data Validation, Data Transformation, Statistical Analysis, A/B Testing, Customer Segmentation
- **Business Intelligence & Visualization:** Power BI, Tableau, Looker Studio, Dashboard Development, KPI Monitoring, Data Visualization, Operational Reporting
- **Data Management:** Data Integration, ETL, Data Quality, Data Cleaning, Data Validation
- **AI / Machine Learning:** CNN, Classification, Clustering, NLP, Sentiment Analysis, Topic Modeling, Prompt Engineering
- **Business & Stakeholder:** Requirement Gathering, Business Process Analysis, Process Improvement, Stakeholder Management, Cross-functional Collaboration, Business Reporting, Project Coordination, Agile/Scrum, Waterfall

EXPERIENCE

Business Data Support

Bandung, ID

PT Infokes Indonesia – Technology Information

Nov 2025 – Present

- Translated business and reporting requirements into data and business intelligence solutions by collaborating with cross-functional stakeholders and identifying operational reporting needs.
- Integrated multiple operational data sources into a centralized reporting ecosystem, establishing a more consistent source of truth and improving reporting accuracy by 70%.
- Designed and delivered interactive dashboards and KPI reporting that transformed operational data into actionable performance insights, accelerating management decision-making by 40%.
- Established data validation and quality assurance processes to improve data consistency and reliability before operational reports were delivered to stakeholders.
- Automated end-to-end reporting workflows using Google Apps Script, improving reporting consistency by 45% and reducing operational effort by 67%.
- Supported data transformation and preparation processes to make operational datasets suitable for recurring reporting and business analysis.
- Documented business processes, reporting workflows, and operational procedures to improve maintainability, scalability, and knowledge sharing across teams.

Marketing Analyst

Bandung, ID

MDBYME – Apparel Brand

Nov 2021 – Mar 2023

- Analyzed sales performance across 3 retail stores and 2 e-commerce platforms to identify customer behavior, sales trends, and business opportunities.
- Developed analytical reports and performance dashboards using Microsoft Excel to improve operational visibility and support business performance monitoring.
- Conducted A/B testing and customer segmentation analysis to evaluate campaign performance and improve targeting accuracy by 15%.
- Translated analytical findings into data-driven recommendations that supported marketing strategy and business decision-making.

UNIKOM CODELABS

Data Researcher & Project Manager - Student Activity

Bandung, ID

Jan 2023 – Oct 2025

- Gathered business and technical requirements with stakeholders and translated them into analytical and technical solutions across 5+ software development projects.
- Conducted data preparation, validation, transformation, and analytical evaluation to improve data quality and solution reliability.
- Developed and evaluated machine learning solutions, achieving 92% model accuracy in one project.
- Coordinated Agile and Waterfall software development projects involving 5–10 cross-functional members, covering project planning, stakeholder communication, documentation, and delivery.

PROJECTS

Business Analytics & AI Projects

Social Media Analytical Platform – WEB APP

Jan 2024

- Designed an analytical workflow for evaluating chatbot responses and identifying logical fallacies using structured evaluation and prompt engineering techniques. Conducted data-driven validation and performance evaluation to improve analytical reliability resulting in nomination at APICTA 2024.

Disease Detection Application - MOBILE APP

Jul 2023

- Developed an end-to-end CNN-based image classification workflow using TensorFlow and Scikit-learn, achieving 92% accuracy in disease detection while leading requirements analysis, stakeholder coordination, and a 10-member Scrum team, earning 1st Runner-Up at the COMPFEST 15 AI Innovation Challenge (2023).

ORGANIZATION

AIESEC

Organizing Committee of Marketing - Non Profit Organization

Bandung, ID

Jan 2023 – Oct 2025

- Analyzed marketing process efficiency and campaign performance metrics using data-driven evaluation, improving outreach and conversion by 20%.
- Collaborated cross-functionally to communicate insights effectively and align promotional strategies with organizational objectives.

EDUCATION

UNIVERSITAS KOMPUTER INDONESIA

Bachelor of Computer Science

Bandung, ID

Nov 2025

Cumulative GPA 3.68 /4.0; Awarded Rector's Scholarship from 3rd semester;

Relevant coursework: Business Intelligence, Data Analytics, Data Science, Database Systems, Machine Learning, Data Management

UNIVERSITI MALAYSIA TERENGGANU

Summer School Program in Computer Science

Bandung, ID

Nov 2025

Partnered with stakeholders in an international team to develop a data-informed multimedia project based on analytical research, achieving 3rd Place Best Project Award among 10 international teams.

CERTIFICATIONS

- [Associate Data Scientist, BNSP Indonesia](#) 2025
- [Coding and Programming, Samsung Innovation Campus](#) 2024

ACHIEVEMENTS

- Asia Pacific ICT Alliance (APICTA), Business Services and R&D Nominee 2024
- Program Kreativitas Mahasiswa, National PKM funding for Innovative Work 2024
- AI Innovation Challenge COMPFEST 15, First Runner Up 2023
- Google Solution Challenge, Top 100 team, among 2,000+ teams worldwide 2023
- IdenTIK, 3rd Place Digital Inclusivity 2023
